Decision:

Name & Title | Signature (for the) Commissioner of Elementary and Secondary Education | Date |
The Department of Elementary and Secondary Education’s Guidelines for the Vocational Technical Education Program Nonresident Student Tuition Process Pursuant to M.G.L. c. 74 are available at http://www.doe.mass.edu/cte/admissions/. The Guidelines provide important information about the nonresident tuition process and thus should be reviewed.

This application is to be filed for a student who has been admitted, or is being considered for admission, to a specific Chapter 74-approved vocational technical education program outside of his/her district of residence for which his/her city or town of residence may be required to pay tuition. The official list of Chapter 74-approved vocational technical education programs is contained in the Chapter 74 Vocational Technical Education Program Directory available at http://www.doe.mass.edu/cte/programs/.

Note that the approval or disapproval of the Chapter 74 Vocational Technical Education Program Nonresident Student Tuition Application is separate from the acceptance/non-acceptance of a student to a school through the school’s admission policy. An approval for nonresident tuition becomes null and void if the student is not accepted to the receiving school.

PART I should be completed by the student and student’s parent/guardian and submitted to the receiving district by March 15 of the preceding year. If the student is under 18 his/her parent/guardian must sign. A staff member from the receiving school should be available to assist families in completing Part 1 of the application. The form must identify the program by its Chapter 74-approved state title, not by the course title assigned by the district. The specific program in the agriculture and natural resources cluster must be identified.

PART II must be completed by the receiving district and signed by the superintendent of the receiving district (or his/her designee) indicating a) the status of the student’s application for admission, b) if the Chapter 74 program sought is/isn’t available in the student’s district of residence, and c) that the parent/guardian and student have been informed that a change in Chapter 74 program by a non-resident student will require the submission of a new Chapter 74 Vocational Technical Education Program Nonresident Student Tuition Application. The Chapter 74 Vocational Technical Education Program Nonresident Student Tuition Application should be given to the applicant/parent/guardian with instructions to provide it to the superintendent of the district of residence no later than April 1 of the preceding school year. Note: If the Chapter 74 or exploratory program is available in the district of residence, the student cannot be admitted to the receiving district through the Chapter 74 Non-resident Student Tuition Program. However, a student may apply for nonresident admission for the purpose of exploring specialized agriculture and natural resources programs not available in the student’s district of residence.

PART III must be completed by the superintendent of the district of residence clearly indicating approval or disapproval. If the application is disapproved, the reason for disapproval must be clearly stated. The application must be returned to the receiving district and the parent/guardian within 10 business days.

Disapproval of the Chapter 74 Vocational Technical Education Program Nonresident Student Tuition Application
The non-resident student’s parent or guardian may request that the Department review the disapproval. The request for a review and any supporting documentation shall be submitted in writing to the Department no later than May 1. The decision of the Commissioner shall be final. In making his decision, the Commissioner may take into consideration the availability of a comparable program that is closer to the non-resident student’s residence, whether the district of residence has designated a school of preference and whether the cost of providing transportation to the non-resident student would be more than the average per student amount the district spent in the previous year for non-resident transportation.

The district of residence and the receiving district may be required to provide additional information to the Department. The Department will review the disputed application and rule on the review within ten business days of the receipt of the request for a review provided that all requested information is received. The Department may extend the review for a reasonable period in order to acquire additional information. The Department will return copies of the application with the decision to the party that sent it, including the receiving district and the district of residence.

Approval of the Chapter 74 Vocational Technical Education Program Nonresident Student Tuition Application
If the application is approved, and the student is admitted, the student’s city or town of residence will be liable for the payment of tuition as provided for in M.G.L. c. 74, section 7C. Districts must keep copies of approved nonresident applications on file and make them available for verification and audit.
